Kraków

21st May 2010

To whom it may concern,

From April 11th to May 1st, 2010, Mr Piotr Dąbrowski has worked as a Polish-French interpreter for the group of Polish machine operators and engineers in VALEO factory in Châtellerault (France).

His duty was to assist machine operators during their training on the use of a new assembly line as well as to accompany engineers during their meetings with their French colleagues. Furthermore he has translated a set of job sheets related to the assembly line and the machine maintenance manual.

His services were highly appreciated by our client. Mr Piotr Dąbrowski approved himself to be a competent, conscientious and reliable interpreter by his perfect language skills and the mastering of specific technical terminology.

We can confidently recommend his services as a translator and interpreter.

Sincerely,

Krzysztof Nowiński
